AARUSH SHARMA

CYBERSECURITY & DEVSECOPS • SOFTWARE ENGINEERING

Mumbai, India • +91 99422 46362 • iamaarushmohan@gmail.com • 4aru5h.in • github.com/4aru5h • linkedin.com/in/4aru5h

EDUCATION

Mukesh Patel School of Technology Management & Engineering (MPSTME), SVKM's NMIMS — **Aug 2024 – Jun 2029**

Bachelor of Technology (B.Tech Integrated) in Computer Engineering • Mumbai, India

- **Focus & Core Coursework:** Cybersecurity, Penetration Testing, DevSecOps, Network Protocols (TCP/IP, DNS), Linux Internals, Operating Systems, Database Management Systems, Data Structures & Algorithms.

TECHNICAL SKILLS

Cybersecurity & DevSecOps:	Kali Linux, Wireshark, Burp Suite, Nessus, TCP/IP & DNS Analysis, STRIDE Threat Modeling, Bandit & Semgrep SAST, GitHub Actions, Anomaly Detection ML
Languages & Systems:	C / C++, TypeScript, JavaScript (ESNext), Python 3, Java, Kotlin, PHP, Bash Shell Scripting, SQL, HTML5 / CSS3
Frameworks & Web:	React, Node.js, Express, Flask, Vite, RESTful API Architecture, Bootstrap 5, Monaco Editor API, OpenGL, Win32 API
Databases & Concepts:	PostgreSQL, MySQL, MongoDB, Linux System Administration, Compiler Design (AST, Precedence Climbing), RAG & LangGraph

EXPERIENCE

Social Conclave MPSTME NMIMS — Tech Executive — **Sep 2026 – Present**

Collegiate Social Initiative Committee • Mumbai, India

- Manage technical requirements and coordinate digital operations across teams, deploying reliable solutions for college-wide social initiatives and conferences.

Google Developer Group on Campus — Cybersecurity Executive — **Aug 2026 – Present**

SVKM's NMIMS MPSTME • Mumbai, India

- Direct developer initiatives, technical workshops, and hackathons; conduct hands-on training sessions on application security hygiene and modern tooling.

Complete Cinema — Web Development Intern — **May 2026 – Jul 2026**

Digital Media Publishing • Mumbai, India

- Architected scalable website infrastructure; optimized database queries, reducing media asset load latency; hardened auth endpoints and form validation against injection vulnerabilities.

ISA Tech MPSTME — Web Design & Development — **Mar 2025 – Sep 2025**

Departmental Technology Committee • Mumbai, India

- Designed user-centered UI/UX systems in Figma; engineered responsive front-end components and high-throughput student event registration portals using React and Bootstrap.

Execelia Studios — Beta Tester & Contributor — **Feb 2024**

Independent Game Studio • Remote

- Stress-tested horror title *Elhosea*; diagnosed runtime bottlenecks, collision edge-cases, and verified bug fixes to achieve consistent 60 FPS performance.

FEATURED PROJECTS

Cybersecurity Automation & Intelligent Threat Detection | *Python, ML, Bash, Security Tooling* — **github.com/4aru5h/Cybersecurity...**

- Engineered an automated security framework leveraging machine learning threat detection techniques to identify network anomalies and accelerate incident response workflows.

boltlang | *TypeScript, Compiler Design, AST* — **github.com/4aru5h/bolt-lang**

- Designed and built a custom interpreted language featuring lexical analysis, precedence climbing parser, AST construction, and an interactive runtime execution engine.

CERTIFICATIONS & ACCREDITATIONS

- **Google Cybersecurity Professional Certificate** — Google
- **Edge Computing** — Packt
- **RAG Systems & Agentic Workflows** — Board Infinity
- **Cybersecurity & Ethical Hacking** — iHUB, IIT Roorkee
- **CS50x: Intro to Computer Science** — Harvard University
- **STRIDE Threat Modeling & SAST Workflows** — Self-Directed
